

PAE RANGE | EMERGENCY LIGHT V16

V16, commitment to your safety

Essential emergency light for use in the vehicle in the event of any incident to improve visibility and safety.

Easy to store

Thanks to its compact size and light weight, you can store it anywhere in the vehicle or take it with you wherever you go.

Total autonomy and without cables

6 hours of autonomy. Battery operated.

Maximum safety and efficiency

Thanks to the magnetic surface you can attach the light to any metal surface. It also has a manual hook.

LED

LED technology

Emits a triple amber flash.

1Km

Visibility to 1Km

The reflector ensures 360° light dispersion. Perfect visibility in low light conditions.

Torch mode

Allows the light to be used as a torch. 3 hours at 100% usage. 6 hours at 50%.

IP54 protection

Shockproof and waterproof, it is compatible with all weather conditions: rain, snow, wind or fog.

Quick and easy activation

Maximum convenience when placing the light on a fixed surface, thanks to its quick switch-on.
